

May Institute Bullying Prevention and Intervention Plan

This plan applies to: students and members of a school staff, including, but not limited to educators, administrators, school nurses, cafeteria workers, custodians, bus drivers, athletic coaches, advisors to an extracurricular activity and paraprofessionals.

APPENDIX A: BULLYING PREVENTION AND INTERVENTION INCIDENT REPORTING FORM

I. LEADERSHIP

May Institute recognizes that leadership at all levels play a critical role in developing and implementing Bullying Prevention and Intervention Plans to promote a positive school climate. School leaders play a pivotal role in teaching students to be respectful to one another and promoting an understanding of diversity and differences.

May Institute leaders are responsible for setting priorities and for staying up-to-date with current research on ways to prevent and effectively respond to bullying. It is also the responsibility of leaders to involve representatives from the greater school and local community in developing and implementing

the plan.

The Executive Director of each school is responsible for the implementation and oversight of the Bullying Prevention and Intervention Plan with support from Clinical Leadership, Human Resources, Quality Improvement, and the Bullying Prevention and Intervention Plan Committee.

*Bullying Prevention Committee Member:
Ed Records Committee*

- A. Assessing needs and resources. This plan is used as a blueprint for enhancing capacity to prevent and respond to issues of bullying within the context of other healthy school climate initiatives. As part of the planning process, school leaders, with input from families and staff, assess the adequacy of current programs; review current policies and procedures; review available data on bullying and behavioral incidents; and assess available resources including curricula, training programs, and behavioral health services. This process will assist the schools in identifying resource gaps and the most significant areas of need. Based on these findings, schools revise or develop policies and procedures; establish partnerships with community agencies, including law enforcement; and set priorities.

At least once every four years, the schools will administer a Department of Elementary and Secondary-developed student survey to assess school climate and the prevalence, nature, and severity of bullying in our schools. Additionally, the school or district will annually report bullying incident data to the Department.

- C. Planning and oversight. This plan identifies the school leaders responsible for the following tasks under the Plan: 1) receiving reports on bullying; 2) collecting and analyzing building- and/or school-wide data on bullying to assess the present problem and to measure improved outcomes; 3) creating a process for recording and tracking incident reports, and for accessing information related to targets and aggressors; 4) planning for the ongoing professional development that is required by the law; 5) planning supports that respond to the needs of targets and aggressors; 6) choosing and implementing the curricula that the school or district will use; 7) developing new or revising current policies and protocols under the Plan, including an Internet safety policy, and designating key staff to be in charge of implementation of them; 8) amending student and staff handbooks and codes of conduct to, among other things, make clear that bullying of students by school staff or other students will not be tolerated; 9) leading the parent or family engagement efforts and drafting parent information materials; and 10) reviewing and updating the Plan each year, or more frequently.

- D. Priority Statements:

It is expected that all members of the school community to treat each other in a civil manner and with respect for differences.

The school is committed to providing all students with a safe learning environment that is free from bullying, cyberbullying, and retaliation. This commitment is an integral part of our

comprehensive efforts to promote learning, and to prevent and eliminate all forms of bullying and other harmful and disruptive behavior that can impede the learning process.

We recognize that certain students may be more vulnerable to become targets of bullying, harassment, or teasing based on actual or perceived characteristics, including race, color, religion, ancestry, national origin, sex, socioeconomic status, homelessness, academic status, gender identity or expression, physical appearance, or sensory disability, or by association with a person who has or is perceived to have one or more of these characteristics. The school identifies specific steps to take to create a safe, supportive environment for vulnerable populations in the school community, and provide all students with the skills, knowledge, and strategies to prevent or respond to bullying, harassment, or teasing.

We will not tolerate any unlawful or disruptive behavior, including any form of bullying, cyberbullying, or retaliation, in our school buildings, on school grounds, or in school-related activities. We will investigate promptly all reports and complaints of bullying, cyberbullying, and retaliation, and take prompt action to end that behavior and restore the target's sense of safety. We will support this commitment in all aspects of our school community, including curricula, instructional programs, staff development, extracurricular activities, and parent or guardian involvement.

The Bullying Prevention and Intervention Plan is a comprehensive approach to addressing bullying and cyberbullying, and the school is committed to working with students, staff, families, law enforcement agencies, and the community to prevent issues of violence. In consultation with these groups, we have established this plan for preventing, intervening, and responding to incidents of bullying, cyberbullying, and retaliation. The Executive Director is responsible for the implementation and oversight of the plan except when a reported bullying incident involves the Executive Director as the alleged aggressor. In such cases, the Vice President or designee shall be responsible for investigating the report, and other steps necessary to implement the plan, including addressing the safety of the alleged target. If the Vice President is the alleged aggressor, Director of Human Resources or designee shall be responsible for investigating the report, and other steps necessary to implement the plan, including addressing the safety of the alleged victim.

II. TRAINING AND PROFESSIONAL DEVELOPMENT

- A. Annual staff training on the Plan. Annual training for all school staff on the plan includes an overview of the steps that the Executive Director or designee follows upon receipt of a report of bullying or retaliation, and an overview of the bullying prevention curricula to be offered at all grades throughout the school or district. Staff members hired after the start of the school year are required to participate in school-based training during the school year in which they are hired.
- B. Ongoing professional development. The goal of professional development is to establish a common understanding of tools necessary for staff to create a school climate that promotes safety, civil communication, and respect for differences. Professional development will build the skills of staff members to prevent, identify, and respond to bullying. As required by M.G.L. c. 71, § 370, the

content of schoolwide and district wide professional development will be informed by research and will include information on:

- (i) developmentally (or age-) appropriate strategies to prevent bullying;
- (ii) developmentally (or age-) appropriate strategies for immediate, effective interventions to stop bullying incidents;
- (iii) information regarding the complex interaction and power differential that can take place between and among an aggressor, target, and witnesses to the bullying;
- (iv) research findings on bullying, including information about specific categories of students who have been shown to be particularly at risk for bullying in the school environment;
- (v) information on the incidence and nature of cyberbullying; and
- (vi) Internet safety issues as they relate to cyberbullying.

Professional development addresses ways to prevent and respond to bullying or retaliation for students with disabilities that must be considered when developing students' Individualized Education Programs (IEPs). This includes a particular focus on the needs of students with autism or students whose disability affects social skills development.

Additional areas identified by the school or district for professional development include:

- promoting and modeling the use of respectful language;
- fostering an understanding of and respect for diversity and difference;
- building relationships and communicating with families;
- constructively managing classroom behaviors;
- using positive behavioral intervention strategies;
- applying constructive disciplinary practices;
- teaching students skills including positive communication, anger management, and empathy for others;
- engaging students in school or classroom planning and decision-making;
- maintaining a safe and caring classroom for all students; and
- engaging staff and those responsible for the implementation and oversight of the Plan to distinguish between acceptable managerial behaviors designed to correct misconduct, instill accountability in the school setting, etc and bullying behaviors

- C. Written notice to staff. The school provides all staff with an annual written notice of the plan by publishing information about it.

III. ACCESS TO RESOURCES AND SERVICES

A key aspect of promoting positive school climates is ensuring that the underlying emotional needs of targets, student aggressors, families, and others are addressed. The plan describes the strategies for providing supports and services necessary to meet these needs. In order to enhance the school's or capacity to prevent, intervene early, and respond effectively to bullying, available services should reflect an understanding of the dynamics of bullying and provide approaches to address the needs of targets

and student aggressors. Plans must include a strategy for providing counseling or referral to appropriate services for student aggressors, targets, and family members of those students. These locally established strategies should be reflected in the school plan.

- A. Identifying resources. The school provides clinical and education supports for targets, student aggressors, and their families. The school reaches out to additional clinical and counseling supports within the organization as needed. The school attempts to identify resources within the student's district. This support includes a review of current staffing and programs that support the creation of positive school environments by focusing on early interventions and intensive services. Once this mapping of resources is complete, the school or district develops recommendations and action steps to fill resource and service gaps. This may include adopting new curricula, reorganizing staff, establishing safety planning teams, and identifying other agencies that can provide services. The school provides all students with the skills, knowledge, and strategies to prevent or respond to bullying, harassment, or teasing. This is discussed annually at the student's IEP meeting and specific goals are developed to ensure students are not vulnerable to bullying. All employees, student, parents, and guardians receive training or access to the prevention and response to bullying and cyber-bullying. In addition, all students participate in bullying curriculum annually as well as ongoing monitoring by school employees. Upon receiving reports of possible bullying, the administrative team meets to review the details, completes an investigation, and identifies appropriate steps to address the issue and promote student safety. The outcome is documented and reported to DESE, parents, and the school district.

- B. Counseling and other services. Multicultural lessons are taught to promote understanding of differences. Collaboration occurs with the student's school district and additional resources to identify linkages with community-based organizations, including Community Service Agencies (CSAs) for Medicaid eligible students. A variety of adaptive curriculum is used at the school and students are taught in their primary language as indicated on their IEP. Interpreter and translation services are provided to students' families as requested. The clinical and education team assists in developing safety plans for students who have been targets of bullying or retaliation, providing social skills programs to prevent bullying, and offering education and/or intervention services for students exhibiting bullying behaviors. The behavioral intervention plans is reviewed as part of this process, and updates are made as needed to target socially appropriate interactions. In addition, social skills groups, and individually focused curricula are used.

- C. Students with disabilities. As required by M.G.L. c. 71B, § 3, as amended by Chapter 92 of the Acts of 2010, when the IEP Team determines the student has a disability that affects social skills development or the student may participate in or is vulnerable to bullying, harassment, or teasing because of his/her disability, the Team considers what should be included in the IEP to develop the student's skills and proficiencies to avoid and respond to bullying, harassment, or teasing.

- D. Referral to outside services. The school collaborates with each student's district to refer students and families to outside services as needed. Referrals comply with relevant laws and policies and referral protocols are evaluated to assess their relevance to the Plan, and are revised as needed.

IV. ACADEMIC AND NON-ACADEMIC ACTIVITIES

A. Specific bullying prevention approaches. Bullying prevention curricula is informed by current research which, among other things, emphasizes the following approaches:

- using scripts and role plays to develop skills;
- empowering students to take action by knowing what to do when they witness other students or school staff engaged in acts of bullying or retaliation, including seeking adult assistance;
- helping students understand the dynamics of bullying and cyberbullying, including the underlying power imbalance;
- emphasizing cybersafety, including safe and appropriate use of electronic communication technologies;
- enhancing students' skills for engaging in healthy relationships and respectful communications; and
- engaging students in a safe, supportive school environment that is respectful of diversity and difference.

B. General teaching approaches that support bullying prevention efforts. The following approaches are integral to establishing a safe and supportive school environment. These underscore the importance of our bullying intervention and prevention initiatives:

- setting clear expectations for students and establishing school and classroom routines;
- creating safe school and classroom environments for all students, including for students with disabilities, lesbian, gay, bisexual, transgender students, and homeless students;
- using appropriate and positive responses and reinforcement, even when students require discipline;
- using positive behavioral supports;
- encouraging adults to develop positive relationships with students;
- modeling, teaching, and rewarding pro-social, healthy, and respectful behaviors;
- using positive approaches to behavioral health, including collaborative problem-solving, conflict resolution training, teamwork, and positive behavioral supports that aid in social and emotional development;
- using the Internet safely; and
- supporting students' interest and participation in non-academic and extracurricular activities, particularly in their areas of strength.

V. POLICIES AND PROCEDURES FOR REPORTING AND RESPONDING TO BULLYING AND RETALIATION

A. Reporting bullying or retaliation. Reports of bullying or retaliation may be made by staff, students, parents or guardians, or others, and may be oral or written. Oral reports made by or to a staff member shall be recorded in writing. A school or district staff member is required to report immediately to the principal or designee or to the superintendent or designee when the principal or assistant principal is the alleged aggressor or to the school committee or designee when the

superintendent is the alleged aggressor, any instance of bullying or retaliation the staff member becomes aware of or witnesses. Reports made by students, parents or guardians, or other individuals who are not school or district staff members, may be made anonymously. The school has reporting resources available to the school community including, but not limited to, an Incident Reporting Form.

Use of an Incident Reporting Form is not required as a condition of making a report. The school will make it available in the school's main office, the counseling office, the school nurse's office, and other locations determined by the Executive Director or designee; and post it on the school's website. The Incident Reporting Form will be made available in the most prevalent language(s) of origin of students and parents or guardians as needed.

At the beginning of each school year, the school provides the school community, including, but not limited to, educators, administrators, school nurses, custodians, bus drivers, athletic coaches, advisors to extracurricular activities, paraprofessionals, students, and parents or guardians, with written notice of its policies for reporting acts of bullying and retaliation. A description of the reporting procedures and resources, including the name and contact information of the principal or designee, and the superintendent or designee when the principal or the assistant principal is the alleged aggressor, will be incorporated in student and staff handbooks, on the school or district website, and in information about the Plan that is made available to parents or guardians.

1. Reporting by Staff

A staff member will report immediately to the Executive or designee, or to the Vice President or designee when the Executive Director is the alleged aggressor, or to the Director of Human Resources or designee when the Vice President is the alleged aggressor when he/she witnesses or becomes aware of conduct that may be bullying or retaliation. The requirement to report as provided does not limit the authority of the staff member to respond to behavioral or disciplinary incidents consistent with school or district policies and procedures for behavior management and discipline.

2. Reporting by Students, Parents or Guardians, and Others

The school expects students, parents or guardians, and others who witness or become aware of an instance of bullying or retaliation involving a student to report it to the Executive Director or designee, or Vice President or designee when the Executive Director is the alleged aggressor. Reports may be made anonymously, but no disciplinary action will be taken against an alleged aggressor solely on the basis of an anonymous report. Students, parents or guardians, and others may request assistance from a staff member to complete a written report. Students will be provided practical, safe, private, and age-appropriate ways to report and discuss an incident of bullying with a staff member, or with the Executive Director or designee, or Vice President or designee when the Executive Director is the alleged aggressor.

B. Responding to a report of bullying or retaliation – Allegations of Bullying by a Student.

1. Safety

Before fully investigating the allegations of bullying or retaliation, the Executive Director or designee will take steps to assess the need to restore a sense of safety to the alleged target and/or to protect the alleged target from possible further incidents. Responses to promote safety may include, but not be limited to, creating a personal safety plan; pre-determining seating arrangements for the target and/or the aggressor in the classroom, at lunch, or on the bus; identifying a staff member who will act as a “safe person” for the target; and altering the aggressor’s schedule and access to the target. The Executive Director or designee will take additional steps to promote safety during the course of and after the investigation, as necessary.

The Executive or designee will implement appropriate strategies for protecting from bullying or retaliation a student who has reported bullying or retaliation, a student who has witnessed bullying or retaliation, a student who provides information during an investigation, or a student who has reliable information about a reported act of bullying or retaliation.

2. Obligations to Notify Others

- a. Notice to parents or guardians. Upon determining that bullying or retaliation has occurred, the Executive Director or designee will promptly notify the parents or guardians of the target and the student aggressor of this, and of the procedures for responding to it. There may be circumstances in which the Executive Director or designee contacts parents or guardians prior to any investigation. Notice will be consistent with state regulations at 603 CMR 49.00.
- c. Notice to Law Enforcement. At any point after receiving a report of bullying or retaliation, including after an investigation, if the Executive Director or designee has a reasonable basis to believe that criminal charges may be pursued against the aggressor, the Executive Director will notify the local law enforcement agency. Notice will be consistent with the requirements of 603 CMR 49.00 and locally established agreements with the local law enforcement agency. Also, if an incident occurs on school grounds and involves a former student under the age of 21 who is no longer enrolled in school, the Executive Director or designee shall contact the local law enforcement agency if he or she has a reasonable basis to believe that criminal charges may be pursued against the student aggressor.

In making this determination, the Executive Director will, consistent with the plan and with applicable school policies and procedures, and other organization leadership the Executive Director or designee deems appropriate.

- C. Investigation. The Executive Director or designee will investigate promptly all reports of bullying or retaliation and, in doing so, consider all available information known, including the nature of the allegation(s) and the ages of the students involved.

During the investigation the principal or designee will, among other things, interview students, staff, witnesses, parents or guardians, and others as necessary. The Executive Director or designee (or whoever is conducting the investigation) will remind the alleged student aggressor, target, and

witnesses of the importance of the investigation, their obligation to be truthful and that retaliation against someone who reports bullying or provides information during a bullying investigation is strictly prohibited and will result in disciplinary action.

Interviews may be conducted by the Executive Director or designee, other staff members as determined by the Executive Director or designee, and in consultation with the school counselor, as appropriate. To the extent practicable, and given his/her obligation to investigate and address the matter, the Executive Director or designee will maintain confidentiality during the investigative process. The Executive Director or designee will maintain a written record of the investigation.

Procedures for investigating reports of bullying and retaliation will be consistent with school or district policies and procedures for investigations. If necessary, the Executive Director or designee will consult with legal counsel about the investigation.

- D. Determinations. The Executive Director or designee will make a determination based upon all of the facts and circumstances. If, after investigation, bullying or retaliation is substantiated, the Executive Director or designee will take steps reasonably calculated to prevent recurrence and to ensure that the target is not restricted in participating in school or in benefiting from school activities. The Executive Director or designee will: 1) determine what remedial action is required, if any, and 2) determine what responsive actions and/or disciplinary action is necessary.

Depending upon the circumstances, the Executive Director or designee may choose to consult with the students' teacher(s) and/or other school employees, and the target's or student aggressor's parents or guardians, to identify any underlying social or emotional issue(s) that may have contributed to the bullying behavior and to assess the level of need for additional social skills development.

The Executive Director or designee will promptly notify the parents or guardians of the target and the aggressor about the results of the investigation and, if bullying or retaliation is found, what action is being taken to prevent further acts of bullying or retaliation. All notice to parents must comply with applicable state and federal privacy laws and regulations. Because of the legal requirements regarding the confidentiality of student records, the Executive Director or designee cannot report specific information to the target's parent or guardian about the disciplinary action taken unless it involves a "stay away" order or other directive that the target must be aware of in order to report violations.

The Executive Director or designee shall inform the parent or guardian of the target about the Department of Elementary and Secondary Education's problem resolution system and the process for accessing that system, regardless of the outcome of the bullying determination.

E. Responses to Bullying

1. Teaching Appropriate Behavior Through Skills-building

Upon the Executive Director or designee determining that bullying or retaliation has occurred, the law requires that the school use a range of responses that balance the need for accountability with

the need to teach appropriate behavior. M.G.L. c. 71, § 37O (d) (v). Skill-building approaches that the principal or designee may consider include:

- offering individualized skill-building sessions based on the school’s anti-bullying curricula;
- providing relevant educational activities for individual students or groups of students, in consultation with guidance counselors and other appropriate school personnel;
- implementing a range of academic and nonacademic positive behavioral supports to help students understand pro-social ways to achieve their goals;
- meeting with parents and guardians to engage parental support and to reinforce the anti-bullying curricula and social skills building activities at home;
- adopting behavioral plans to include a focus on developing specific social skills; and
- making a referral for evaluation.

2. Taking Disciplinary Action

If the Executive Director or designee decides that disciplinary action is appropriate, the disciplinary action will be determined on the basis of facts found by the principal or designee, including the nature of the conduct, the age of the student(s) involved, and the need to balance accountability with the teaching of appropriate behavior. Discipline will be consistent with the plan and with the school’s code of conduct.

Discipline procedures for students with disabilities are governed by the federal Individuals with Disabilities Education Improvement Act (IDEA), which should be read in cooperation with state laws regarding student discipline.

If the principal or designee determines that a student knowingly made a false allegation of bullying or retaliation, that student may be subject to disciplinary action.

3. Promoting Safety for the Target and Others

The Executive Director or designee will consider what adjustments, if any, are needed in the school environment to enhance the target's sense of safety and that of others as well. One strategy that the Executive Director or designee may use is to increase supervision at transition times and in locations where bullying is known to have occurred or is likely to occur.

Within a reasonable period of time following the determination and the ordering of remedial and/or disciplinary action, the Executive Director or designee will contact the target to determine whether there has been a recurrence of the prohibited conduct and whether additional supportive measures are needed. If so, the Executive Director or designee will work with appropriate school staff to implement them immediately.

F. Responding to a Report of Bullying by School Staff

The policies and procedures address safety planning, notification to parent or guardians and others, investigation, and response – areas that are addressed when a student is alleged to have bullied another student.

VI. COLLABORATION WITH FAMILIES

Resources for families and communication with them are essential aspects of effective collaboration. The law requires the district or school Plan to include provisions for informing parents or guardians about the bullying prevention and intervention curricula used by the school district or school including: (i) how parents and guardians can reinforce the curricula at home and support the school or district plan; (ii) the dynamics of bullying; and (iii) online safety and cyberbullying. Parents and guardians must also be notified in writing each year about the student-related sections of the Bullying Prevention and Intervention Plan, in the language(s) most prevalent among the parents or guardians. School- or district-specific approaches to collaboration should take into account age, climate, socio-economic factors, linguistic, and cultural make-up of students and the parents.

- A. Parent education and resources. The school will offer education programs for parents and guardians that are focused on the parental components of the anti-bullying curricula and any social competency curricula used by the district or school. The programs will be offered in collaboration with the PTO, PTA, School Councils, Special Education Parent Advisory Council, or similar organizations.
- B. Notification requirements. Each year the school will inform parents or guardians of enrolled students about the anti-bullying curricula being used. This notice will include information about the dynamics of bullying, including cyberbullying and online safety. The school will send parents written notice each year about the student-related sections of the plan and the school's Internet safety policy. All notices and information made available to parents or guardians will be in hard copy and electronic formats, and will be available in the language(s) most prevalent among parents or guardians. The school will post the plan and related information on its website.

VII. PROHIBITION AGAINST BULLYING AND RETALIATION

Acts of bullying, which include cyberbullying, are prohibited:

- (i) on school grounds and property immediately adjacent to school grounds, at a school-sponsored or school-related activity, function, or program whether on or off school grounds, at a school bus stop, on a school bus or other vehicle owned, leased, or used by a school; or through the use of technology or an electronic device owned, leased, or used by a school, and
- (ii) at a location, activity, function, or program that is not school-related through the use of technology or an electronic device that is not owned, leased, or used by a school district or school, if the acts create a hostile environment at school for the target or witnesses, infringe on their rights at school, or materially and substantially disrupt the education process or the orderly operation of a school.

Retaliation against a person who reports bullying, provides information during an investigation of bullying, or witnesses or has reliable information about bullying is also prohibited.

As stated in M.G.L. c. 71, § 370, nothing in this Plan requires the district or school to staff any non-

school related activities, functions, or programs.

VIII. Problem Resolution System:

Any parent wishing to file a claim/concern or seeking assistance outside of the district may do so with the Department of Elementary and Secondary Education Program Resolution System (PRS). That information can be found at: <https://www.doe.mass.edu/prs/>, emails can be sent to compliance@doe.mass.edu or individuals can call 781-338-3700. Hard copies of this information is also available at the school's front desk.

IX. DEFINITIONS

Aggressor is a student or a member of a school staff who engages in bullying, cyberbullying, or retaliation towards a student.

Bullying, as defined in M.G.L. c. 71, § 37O, is the repeated use by one or more students or a member of a school staff of a written, verbal, or electronic expression or a physical act or gesture or any combination thereof, directed at a target that:

- i. causes physical or emotional harm to the target or damage to the target's property;
- ii. places the target in reasonable fear of harm to himself or herself or of damage to his or her property;
- iii. creates a hostile environment at school for the target;
- iv. infringes on the rights of the target at school; or
- v. materially and substantially disrupts the education process or the orderly operation of a school.

Cyberbullying, is bullying through the use of technology or electronic devices such as telephones, cell phones, computers, and the Internet. It includes, but is not limited to, email, instant messages, text messages, and Internet postings. See M.G.L. c. 71, § 37O for the legal definition of cyberbullying.

Hostile environment, as defined in M.G.L. c. 71, § 37O, is a situation in which bullying causes the school environment to be permeated with intimidation, ridicule, or insult that is sufficiently severe or pervasive to alter the conditions of a student's education.

Retaliation is any form of intimidation, reprisal, or harassment directed against a student who reports bullying, provides information during an investigation of bullying, or witnesses or has reliable information about bullying.

School Staff includes, but is not limited to, educators, administrators, counselors, school nurses, cafeteria workers, custodians, bus drivers, athletic coaches, advisors to extracurricular activities, support staff, or paraprofessionals.

Target is a student against whom bullying, cyberbullying, or retaliation has been perpetrated.

X. RELATIONSHIP TO OTHER LAWS

Consistent with state and federal laws, and the policies of the school, no person shall be discriminated against in admission to a public school of any town or in obtaining the advantages, privilege and courses of study of such public school on account of race, color, religion, ancestry, national origin, sex, socioeconomic status, academic status, gender identity or expression, physical appearance, sexual orientation, or mental, physical, developmental, or sensory disability, or by association with a person who has or is perceived to have one or more of these characteristics. Nothing in the Plan prevents the school or district from taking action to remediate discrimination or harassment based on a person's membership in a legally protected category under local, state, or federal law, or school or district policies.

In addition, nothing in the Plan is designed or intended to limit the authority of the school or district to take disciplinary action or other action under M.G.L. c. 71, §§ 37H or 37H½, M.G.L. c. 71, §§41 and 42, M.G.L.c 76 § 5, or other applicable laws, or local school or district policies, or collective bargaining agreements, in response to violent, harmful, or disruptive behavior, regardless of whether the Plan covers the behavior.
